

February 27, 1975

We'll go back to General File. Mr. Speaker.

CLERK: I have some more bills to introduce, Mr. President.

SENATOR SAVAGE: Mr. Clerk.

SPEAKER: The calendar is there, we have to use the calendar.

CLERK: Mr. President. I move for the introduction of the attached bill. Signed, Senator George. It's a bill being run through the Education Committee and signed by the members thereof, relating to the Nebraska State Historical Society to transfer land owned by the Game and Parks Commission as prescribed and create a fund. It's request number 776.

SENATOR SAVAGE: Senator George.

SENATOR GEORGE: Mr. Chairman, there is a statement on your desk. This is a rather simple bill. There is no financial impact involved. The simple reason is that a historical site, such as Fort Atkinson, should be simply managed and administered by the State Historical Society because they are equipped to do so. This found the approval of the Board of the Fort Atkinson Foundation. I would like to move for the introduction of the bill.

SENATOR SAVAGE: Is there any further discussion? If not, the question is to move the introduction of the bill by Senator . . . Senator Barnett. . . Record your vote. Senator Savage voting aye.

CLERK: Senator Savage voting aye.

SENATOR SAVAGE: Record your vote. Record the vote Mr. Clerk.

CLERK: 32 ayes, 0 nays, 17 not voting.

Mr. President, I move for the introduction of the attached bill. Signed, Senator Kremer. It's a bill for an act relating to ground water. It's request number 795.

(Senator Burbach presiding)

SPEAKER: Senator Kremer.

SENATOR KREMER: Mr. Chairman, the explanation of this bill is on the desk of each Senator. This bill is the result of a hearing on LB 101 and 535. I believe I remember correctly, there was something like 34 suggested amendments to those bills. The committee felt it would be only good for the State of Nebraska, and in the statewide interest, that the bill be rewritten as proposed by Public Works Committee of last year. A substantial change is made in those two bills. We could have taken the other route and completely amended either one of these bills, but the committee felt it would be much easier for everyone to understand the bill if a brand new bill was introduced. The introduction of this bill is the result of that action. I move for the introduction of the bill.
